6. The Committee further recommends that the remaining Tribal Sub Plan areas like MADA areas as well as similar other blocks (referring to clusters) should be included in the Scheduled Areas.

7. It is recommended by the Committee that the Tribes Advisory Council and the Autonomous District Council in the Scheduled Areas should review the existing laws for their relevance and applicability and take action necessary for exclusion of those that are not relevant and inclusion of those that are useful.

8. The Committee also suggests to constitute a Central Advisory Council primarily to advise on any disputes between State Government and die TAC or between the District Council and TAC. This will, while ensuring federal character of the State, will have the merit of resolving the disputes at the State level by way of consultation and dialogue between differing bodies closer to the ground reality and the grass roots.
